

APPLIANCE CHECKLIST

When you install a battery storage solution, you can find peace of mind knowing that your essential appliances are accessible. In order to build the best custom-designed battery backup system, we need to learn a little bit about your usage. Which appliances do you need most?

Please fill out the chart below with information about which household appliances you own, which units you would like to include in the backup of your home, and how many of each.

Customer Information

First & Last Name

Phone Number

Street Address

Email Address
